NOTICE OF ACTION TAKEN

DOCKET OST-2000-8197

This serves as interim notice to the public of the action described below, taken orally by the Department official indicated; the confirming order or other decision document will be issued as soon as possible.

Applicant: Volga-Dnepr J.S. Cargo Airline

Date Filed: October 25, 2000

Relief requested: Exemption pursuant to 49 U.S.C. section 40109(g) to permit it to operate one one-way cargo charter flight between North Island N.A.S., CA, and Denver, CO, on or about November 7, 2000, using its AN-124 aircraft, to transport an oversized launch vehicle and associated equipment on behalf of Lockheed Martin. The applicant stated that Lockheed Martin required urgent delivery to meet schedule constraints that include final integration activities and preparation for subsequent launch processing; that the cargo is too large for transportation on U.S. carrier aircraft; and that surface transportation is not feasible because of the time involved, the adverse effect a long road trip could have on the vehicles, and the vehicles' size.

Applicant representative: Glenn Wicks 202-457-7790

Responsive pleadings: Volga-Dnepr served its application on those U.S. carriers operating large all-cargo aircraft. Each carrier indicated that it did not have aircraft available to conduct the proposed operation, and that it had no comment or did not oppose grant of the requested authority to Volga-Dnepr.

DISPOSITION

Action: Approved

Action date: November 1, 2000

Effective dates of authority granted: November 6-10, 2000

Basis for approval: We found that the application met all the relevant criteria of 49 U.S.C. section 40109(g) for the grant of an exemption of this type, and that the grant was required in the public interest. Moreover, based on the representations of the U.S. carriers, we concluded that no U.S. carrier had aircraft available which could be used to conduct the operation at issue here. We also found that grant of Volga-Dnepr's request would prevent undue hardship to the cargo and Lockheed Martin.

Except to the extent exempted/waived, this authority is subject to standard exemption conditions and to the condition that Volga-Dnepr comply with an FAA-approved flight routing for the authorized flight, and any requisite Department of Defense authorizations.
